

CAS Faculty

Spring Report - 2018

Since the Fall Assembly, the Faculty Development Committee has met 6 times. The main aim of the meetings was to try to determine how to distribute funds for the CAS internal awards. We did not receive the budget until the beginning of the spring

empowered to improve faculty development is reflected in poor attendance. The size of the committee makes it very difficult the schedule meetings. Many of the discussions have been performed over email and the application evaluations will have to be completed by subcommittees.
