

The Corridor's Matching Grants Research Program
- University of South Florida
Program Guidelines

Budget:

Applicants may request \$1 in matching funds for every \$2 provided by the industry partner (\$1 cash/\$1 in-kind).

Industry Partner		Corridor
Cash	In-Kind*	Maximum 3 (s)

Reporting Requirements:

The Corridor final report consists of a budget reconciliation and a qualitative report. Final reports are due within one month of the project close. If a project is extended, interim reports are due at the time of the extension.

Budget Reconciliation Accounts for how industry and Corridor funds were spent compared to the approved budget. Any significant deviations will require justification. [Budget Reconciliation Template](#)

Qualitative Report: Captures information on the successes of the project and impact of Corridor funding. This document should include input from the industry sponsor to capture the holistic benefits of the project. [Qualitative Report Template](#)

Corridor representatives will also survey industry partners and PIs following the project close (up to seven years) to track the downstream impact of the Matching Grants Research Program. The information collected helps to demonstrate the program's positive economic impact and ensure the continuation of state funding. We appreciate your cooperation.
