

## **THE Joint military Science Leadership Center Newsletter**

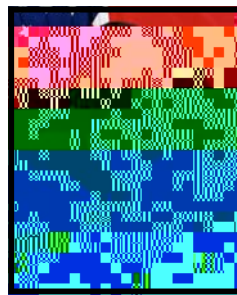

This Newsletter is directed to the state of Florida and regional ROTC Leadership, Department of Defense officials, National Defense University officials, U.S. Special Operations Command officials, U.S. Central Command officials, national and state Congressional leadership, USF Faculty & Staff, City of Tampa Officials, and friends and supporters of the Joint Military Science Leadership Center (JMSLC), at the University of South Florida.

# “Current Joint Leadership Perspectives from the Field”

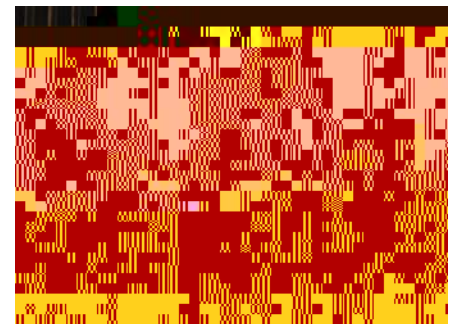

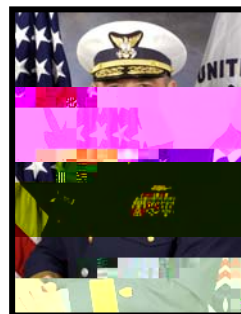

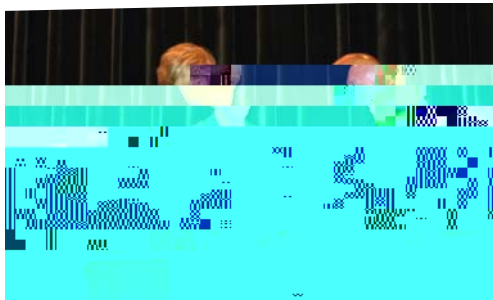

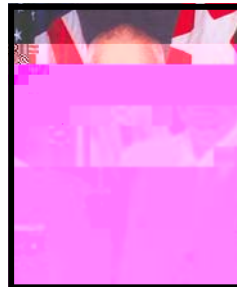

On Friday, 7 October 2005, the JMSLC presented its Fall 2005 Symposium “Current Joint Leadership Perspectives from the Field” at the Davis Conference Center, MacDill Air Force Base.

**GEN Brown, Combatant Commander USSOCOM**

Coming from as far away as the University of Montana, 200 ROTC cadets, midshipmen, and officer candidates from 15 colleges and universities were able to speak with and learn from five distinguished general/flag officers: GEN Bryan Doug Brown, Commander – USSOCOM; GEN John Craddock, Commander – US-SOUTHCOM; MG(R) Douglas Dollar, Executive Director, The National Society Scabbard and Blade; MG Abner Blalock, Deputy Director J4/7, USCENTCOM; and RADM Arthur Brooks, Deputy Director – USNORTHCOM.

The “Leadership Perspectives” panel discussion was moderated by Ms. Rhea Law, USF Trustee and President and CEO of Fowler, White, Boggs, Banker. (cont. page 3)

### (cont.) "Current Joint Leadership Perspectives from the Field"

In attendance were USF President Genshaft, who provided the welcome remarks and Col. Margaret Woodward, Commander 6th AWC and MacDill AFB. The all day event, designed to give future leaders an opportunity to gain in-

We continue to work closely with the 3 ROTC Commands within USF to develop a strategy for the establishment of a Joint Curriculum. We are continuing to research the compare/contrast of service ROTC curriculums for college juniors and seniors in order to find areas of commonality for possible consolidation or cooperation. Our Graduate Assistant researched multicultural education in higher education institutions, assisted in the research of college international/diplomacy programs and certifications, discussed curriculums with various military college programs (VMI, TAMI, Citadel, USMA, USAFA, USNA, ...), and researched systems theory to better understand implications of proposed curriculum changes.

On Thursday, 27 October 2005, the Director met with various National Defense University (NDU) Representatives at Ft. McNair, Washington, DC: Professor Skeets Meyer, Dr. James Keagle, and Dr. Thom Terwilliger, to develop a plan for the implementation of a Joint Course at USF. On Friday, 28, October 2005, the same group from NDU met with Dr. Gilroy, Director of Accession Policy, and Mr. Clark from the Office of the Deputy Under Secretary of Defense for Military Personnel Policy, to brief them on our curriculum development strategy. After much discussion, Dr. Gilroy asked USF if they are interested in developing a National Security Policy and Strategy Baccalaureate Degree. In addition, it was strongly recommended that the "team" continue to develop a course or plan that would apply the "Pre-Commissioning Joint Education" requirements as outlined in the CJCSI 1800.01B as a "pilot" program for USF. We will continue to develop the course content by identifying the "core course commonalities" within the 3 ROTC Services curriculum and develop a series of topics for a "joint" course that could be applied as one unit or in a series of topics throughout their years in ROTC. In the meantime, USF will review and assess its interest in a National Security Policy and Strategy Baccalaureate Degree.
